Cold Shoulder

N-dubz

Why don't you come over? Warm up your cold shoulder
Yeah, we can get crazy, baby, all night before we got sober
Look at yourself, now that ain't good for my health
If you carry on burning hot much longer, the floor beneath us gon' melt
Follow to me to the bar, baby
Otherwise we can take it to my Mercedes
Put the roof down like it was the mid 80's
Push on my gear stick and I will drive you crazy
Take a look at the time
Baby, quit playing games 'cause the sun's 'bout to rise
We've been here all night
Only live once so we might as well act like this
Why don't you come over? Warm up your cold shoulder
Yeah, we can get crazy, baby, all night before we get sober
Wait for hangovers, something here for ya
I'm gonna keep you up, I'm gonna keep you up
Why don't you come over? Warm up your cold shoulder
Yeah, we can get crazy, baby, all night before we get sober
Wait for hangovers, something here for ya
I'm gonna keep you up tonight
I'm all dressed in red and I'm off my head
But I'm no good to get [Incomprehensible]
I'm no good to get between your legs
Let me come into your [Incomprehensible]
You'll be the only one that's wearing costly
We can make love or we can do it off bed
However, baby, let me do it, I'ma drive you crazy
Take a look at the time
Baby, quit playing games 'cause the sun's 'bout to rise
We've been here all night
Only live once so we might as well act like this
Why don't you come over? Warm up your cold shoulder
Yeah, we can get crazy, baby, all night before we get sober
Wait for hangovers, something here for ya
I'm gonna keep you up, I'm gonna keep you up
Why don't you come over? Warm up your cold shoulder
Yeah, we can get crazy, baby, all night before we get sober
Wait for hangovers, something here for ya
I'm gonna keep you up tonight

No more talking, let's go, what you standing there for?
Lets get tipsy, let's get wasted, then we'll party some more
No more talking, let's go, I just can't wait no more
It's time to hit the floor now, I'm gonna give you up
Why don't you come over? Warm up your cold shoulder
Yeah, we can get crazy, baby, all night before we get sober
Wait for hangovers, something here for ya
I'm gonna keep you up, I'm gonna keep you up
Why don't you come over? Warm up your cold shoulder
Yeah, we can get crazy, baby, all night before we get sober
Wait for hangovers, something here for ya
I'm gonna keep you up tonight
