

# Thundersteel

## Riot

A streak of lightning is shooting through the air  
Electric sun lights the sky  
His face is frightening, so evil one's beware  
Men of disaster hear his cry  
And now at last we know he's real  
The power of his sword we feel  
Thundersteel

ThundersteelThe earth it rumbles death is in the air  
The city crumbles death is everywhere  
And from the burning sky we see the soldier fly  
He mounts his horse of steel and  
now he rides And now at last we know he's real  
The power of his word we feel  
Thundersteel

ThundersteelA streak of Lightning is shooting through the air  
Electric sun lights the sky  
His face is frightening, so evil one's beware  
Men of disaster hear his cry  
And now at last we know he's real  
The power of his sword we feel  
Thundersteel  
Thundersteel  
Thundersteel
