

# Walking Bye

MxPx

I ask myself the question  
What is wrong with me  
Can't figure what it is  
Or why it's never me they want When will my turn come  
About and when will justice see me  
Why all these stupid questions  
They never help me You never notice me  
You never seem to see  
When I'm walking bye  
You never ever say hi I don't know nobody  
That I don't want to know  
But I'd sure like to know you  
And I'd like to show you  
How the way I am And things that matter much to me  
How I say, I am I, usually  
How those things don't seem
