This Is Us Breaking Up (better Off)

Push Play

Baby, but I'm finally breaking out so roll the credits
and just forget it I?ll make it through somehow
And don't go and change your mind
Honey, but it's not gonna be work this time
I'm biting my lip, I'm holding it in
I'm leaving you behind

Tell me can you hear me screaming out?
The next time that you see me keep your head
Down ?Cause I'm not gonna miss you I've got all
the pictures and scissors, I'm cutting you out

Say that you need me I?ll say that I'm leaving,
Goodbye I'm better off here without you and I
don't give a damn about you say that you need me
I'll say that I'm leaving, goodbye I'm better off here
without you and that?s just how I feel about you now

You can try and stand up tall girl you know your
back's against the wall the story is ending so stop
pretending I cared for you at all

So call up the EMT baby, you're not gonna take this lightly
And for the record I burned your letters They meant nothing
to me tell me can you hear me screaming out the next time
that you see me keep your head down 'Cause I'm not gonna
miss you I've got all the pictures and scissors, I'm cutting
you out

Say that you need me I'll say that I'm leaving, goodbye
I'm better off here without you And I don't give a damn
about You say that you need me I'll say that I'm leaving,
Goodbye I'm better off here without you And that's just
how I feel about you

I apologize for breaking down This is us breaking up, the
moment is over And I told you it's not working out So stop
your crying now, it's off my Shoulders Tell me can you hear
me screaming out the next time that you see me keep your head

down 'Cause I'm not gonna miss you

Say that you need me I'll say that I'm leaving, goodbye I?m better off here without you and I don't give a damn about you say that you need me I'll say that I'm leaving, goodbye I'm better off here without you And that's just how I feel about you say that you need me I'll say that I'm leaving, Goodbye I'm better off here without you And that's just how I feel about you
