# How Bad We Need Each Other

## Marc Scibilia

Life is too far to walk alone
You can't do it on your own
It's like bare hands digging through stoneAnd if things go down much steeper hills
Even money won't pay these bills
And time will show, show, show
That people gonna be OK
Storms never come to stay
How bad we need each other
How bad we need each other
And the trials of today
They are signs along the way
How bad we need each other
How bad we need each otherYou know I can get so high on myself sometimes
I keep on drifting a million miles from this planet
But what a shame it would be to look back on our life
And realize that I've taken you and me for granted
Not gonna do it nowPeople gonna be OK
Storms never come to stay
How bad we need each other
How bad we need each other
And the trials of today
They are signs along the way
How bad we need each other
How bad we need each otherAnd I cannot see what's a mile around the bend
I don't know where this world is headed
Or where it may end
But you gave me this smile
And so I threw away my frown
And I ain't gonna pick up
Something if I just put downPeople gonna be OK
Storms never come to stay
How bad we need each other
How bad we need each other
And the trials of today
They are signs along the way
How bad we need each other
How bad we need each otherPeople gonna be OK
Storms never come to stay
How bad we need each other

How bad we need each other
And the trials of today
They are signs along the way
How bad we need each other
How bad we need each other
