Empty (In Paris) [Bonus Track]

Lianne La Havas

I knew you were empty
I knew you were lost, yet still I'm alone, but oh how I've grown
Thought that he'd left me, I thought that he'd burned out bright, and I'm alone
But somehow I'm alright
It seemed so easy, just to walk, just to run
But if you leave me, I can reacquaint myself with my true loved one
Just leave town, I can sleep when you're not around
I thought it was myself, that I'd foundI knew you were empty
I knew you were lost, yet still I'm alone, and oh how I've grown
Thought that he'd left me, I thought that he'd burned out bright, and I'm alone
But somehow I'm alright
It seemed so easy, just to walk, just to run
But if you leave me, I can reacquaint myself with my true loved one
So just leave town, I can sleep when you're not around
I thought it was myself that I found
I said just leave town, I can sleep when you're not around
I gotta take another call right now
