

It's Not Me

3 Doors Down

Never mind the face you put on in front of me
Never mind the pain you've put me through
Every little thing you say and every little thing you do
Makes me doubt all of this Look what you did
Is this who you wanted me to be?
Well it's not me Look what you did
Is this how you wanted this to be?
And this life you gave away was meant for me Nevermind the trip you've been on or so it seems
Nevermind the lies that you told my tears
Every little thing you said and every little thing you did
Made me doubt all of this Look what you did
Is this who you wanted me to be?
Well it's not me, no Look what you did
Is this how you wanted this to be?
And this life you gave away was meant for me Look what you did
Is this who you wanted me to be?
Well it's not me, no Look what you did
Is this how you wanted this to be?
And this life you gave away was meant for me, yeah It was meant for me, yeah
No, no
Yeah!
