

# Moving Forward

## Venture

There's a red light in the distance  
But no one is around  
Do you stop to let it change  
Or do what's not allowed

You wish you would have listened  
Cause your sliding off the road  
Nobody there to save you  
No one to bring you home

So pack your bags and move along  
Good luck with a wasted life on the run  
Don't question me in what I do  
And I won't question you  
I know it's hard when all your hope is gone  
I'm moving forward

You toiled with a decision  
Your mind is now confused  
The first step is admitting  
You don't have much to lose

Your glass is half empty  
While mine is almost full  
Your getting closer to the bottom  
Of a very shallow pool

So pack your bags and move along  
Good luck with a wasted life on the run  
Don't question me in what I do  
And I won't question you  
I know it's hard when all your hope is gone  
I'm moving forward

I'm moving forward, I'm moving forward  
Ready or not  
I'm moving forward

Iâ€™m not waiting, no more waiting

So pack your bags and move along  
Good luck with a wasted life on the run  
Donâ€™t question me in what I do  
And I won't question you  
I know itâ€™s hard when all your hope is gone  
Iâ€™m moving forward

Lyrics and melody by Blake Self
