

Deep

Danzig

Into your soul, down you must go
Hope is not my name, free your soul
Here among the lies you realize
Pain is not the same, free your soul I'm on take, sex from love
I'm on take, human bone
I'm on break, you alone
Free your soul Deep in your eyes, down you will slide
There it resides in your soul
Deep down you go, then you will know
Love is not my name, damn your soul I'm on take, sex from love
I'm on take, human bone
I'm on break, you alone
Free your soul
