

# Separated

## Pulley

Here you are in the back again  
You whispered something to a friend  
Plays the songs, their his very own  
Walk away, you're all alone Separated, it's hard for you, separated Wasting time like you only can  
There's much to say, here you are again  
Whoever's listening this time around  
Seem to doubt about your sound What's at home, who's life you live?  
When someone asks, you never give  
What you have nobody wants  
No self esteem, it's your own fault No one turned me on this time  
Turned me on this time, separated Here we are in the back again  
You're whispering to that same old friend  
Plays the songs, their his very own  
Walk away, you're all alone No one turned me on this time  
No one turned me on this time
