

Begin the End

Placebo

Look me in the eye, say that again
Take me to your chest and let me in
Give me mouth to mouth and make amends
Knock me off my feet like heroin No need to disguise or to pretend
Don't misconstrue and don't misapprehend
There's nothing left, no fortress to defend
And tonight's the night that we begin the end You and I kept looking to transcend
The fact that I was breaking to your bend
But this is now but sadly that was then
And tonight's the night that we begin the end Now I tried, God knows I tried
But there's nothing you can do to change my mind
I tried, God knows I tried
But there's nothing you can do to change my mind [Chorus]
And I don't enjoy to watch you crumble
I don't enjoy to watch you cry
But make no mistake
Make no mistake Look me in the eye, say that again
Blame me for the sorry state you're in
It's not my fault that you can't comprehend
That tonight's the night that we begin the end Now I tried, God knows I tried
But there's nothing you can do to change my mind
Now I tried, God knows I tried
But there's nothing you can do to change my mind [Chorus]
And I don't enjoy to watch you crumble
I don't enjoy to watch you cry
And I don't enjoy to watch you crumble
I don't enjoy to watch you cry
But make no mistake
Make no mistake Look me in the eye, say that again
