

# Save Me

## Dexter Freebish

Some days I need to change my world  
One desire fills this empty void  
Tonight I wanna be saved by you  
I wanna be lost in you  
I've fallen from the tops of mountains to the ground  
I've shaken off the sands of time, marched to the sound  
When the clock runs out, and there's no doubt  
I feel so far from home  
When the lies get worse, I'll just get hurt  
I'll find myself alone  
Tonight I wanna be saved by you  
I wanna be lost in you

I wanna be saved by you  
I wanna be lost in you  
Sometimes when I get tired, I wanna be alone  
The days pass uninspired  
I sleep like a stone  
It's better when I'm awake  
Tonight I wanna be saved by you  
I wanna be lost in you  
I wanna be saved by you  
I wanna be lost in you
