

Johnny Marble

Dirt Farmer

Johnny Marbel was a real country man
His two black dolls the only friends he'd ever had
 Satisfied by the gone of the day
 50 v? and sweep or ran away
 She's gonna break it
 She's gonna break it to you
 She's gonna break it
 She's gonna break it to you
Johnny came home and so the back door opened wide
 Never loved really it's broken heart inside
 Little john you no longer need me
He found a man and the loved what odd can be
 She's gonna break it
 She's gonna break it some too
 She's gonna break it
 She's gonna break it to you
