On Our Side

Basshunter

Love on our side, love on our side
That's what makes you feel
Love on our side, love is on my mind
And I can find your heart is beating next to mine
Love on our side, love is on my mind
And I can find your heart is beating next to mine
Love on our side
That's what makes you feel
Love on our side
That's what makes you feel
Love on our side, love is on my mind
And I can find your heart is beating next to mine
Love on our side, love on our side
Your heart is beating next to mine
That's what makes you feel
Mmm, love on our side
Love on our side, love on our side
My heart is beating for you
