We Came To Rock

Pretty Maids

If you're feeling out of nowhere
If you got no place to go
If you're feeling lost and lonely
When you're down the open roadOh, come on join our show
Here we goDid they preach you words of wisdom?
Did they fill your head with lies?
Did they try to break the doorways
To the world behind your eyes?Oh, I want to knowWe came to rock, we came to rock
We came to rock, we came to rockAre you burning with the fever?
Are you ready to explode?
Can you feel the magic power in your heart
When you hear my voice is calling, calling?Oh, come join our showWe came to rock, we came to rock
We came to rock, we came to rockWe are the faces
We are the guardians of the night
We'll rock the ages, it's all rightWe've seen the fire
We are defenders of your rights
We'll take you higher
Gonna take you to the skyWe'll rock until the morning light
We'll rock into your soul
We're gonna hit the stars tonight
We came to rock, to rock and rollWe came to rock, we came to rock
We came to rock, we came to rock
