Sweeter Love

Tracie Spencer

You've got to feel the same
To make our love remain
I'm lookin' for a sweeter love

It's clear to me
The only thing we need
Is to mix our lov into a recipe

Two scoops of sugar, baby
Sugar and spice, everything nice
Squash is defied, make up your mind
To find what the chef's been cookin'

Gimme that sugar baby, how sugar
Make it so sweet, make it unique
Change your physique, you know that you need to see
A sweeter kind of love's what we need

Chorus:
A sweeter love, a love that is sweeter
The sweeter the better for me
A sweeter love, a love that is sweet enough
To satisfy

My desire
To make our love supreme
For love to take us higher it seems

It's got to be a sweeter type of thing
I'll tell you boy exactly what I need-I need

Chorus

Rap
Two scoops of sugar? What is the meaning?
What is the theory behind it that puts a girl and a boy in effect?
Creatin' a sweet love they can't forget
Turn up the oven and pump up the juice
Like a fire, sparks fly loose-like a criminal steals the diamnds he gives to her

But she'd rather have sugar!

Bridge:
As muxh as you like
If you try it you'll find
That your love can be sweeter
Whoever you are - its the recipe for a sweeter love
