

Seasons

Donald Lawrence

I feel seasons everywhere and
I feel blessings in the air
those seeds that you've sown
You're gonna come into your own
Seasons, walk into your season

I feel seasons everywhere
I feel blessings in the air
those seeds that you've sown
It's time to come into your own
Seasons, walk into your season

I believe We're in a time when
God's gonna bless the saints
Those who stayed, those who prayed
He's gonna fulfill the promise he made
For I heard the Sprit say
It's your time the wait is over
walk into your season

I feel seasons everywhere
I feel blessings in the air
those seeds that you've sown
You're gonna come into your own
Seasons, walk into your season

I know THAT you've invested a lot
the return has been slow
You throw up your hands and say
I give up, I just can't take it anymore
But i hear the sprit say THAT ITS YOUR TIME
the waiting is over
Walk into your season

you've survived the worst of times
God was always on your side
State your claim, write your name
Walk into His wealthy place

I heard the Spirit saying

that it's your time

the wait is over, it's your time (REPEAT)

I heard the Spirit say
it's your time, the wait is over
WALK INTO YOUR SEASON (REPEAT)
