

Desire Me

Sam Cooke

Desire me, desire me
as I desire you
desire me and want me
that's all I ever ask of life
that you will someday come to me
and say that you love me
as I love you
hmm

desire me and tell me
that you are mine and mine alone
desire me and love me
and be the queen upon my throne
for I will always worship you
no matter where you go or what you do

there comes a time in the life of every boy
when one and only one girl will do
so now the time has come
and I know that you're the one
and all that I will ever want is you

so desire me desire me
that's all I ever ask of you
desire me and love and tell me that you want me too
for nothing else will matter in the world
as long as I am close to you

there comes a time
in the life of every boy
when one and only one girl will do
so now the time has come
and I know that you're the one
and all that I will ever want is you
so now the time has come
and I know you are the one
and all that I will ever want is you
