

I Love My Life

Elektrik People

I la la la love my, I love my
I love my, I love I love my life So I took a moment and I pictured you with someone else
Ain't gonna lie I got beside myself
A product of your daddy's wealth
So blessed, I can't imagine life without you
Real talk your nothing short of magical
And I agree it's beautiful
You see the good in every soul
And I think I love you
Yeah I do My girl is cray
She got money in the bank
Digs the music that I make
Sing it, I love I love my life
My girl is dope, Louis Vuitton's and Prada coat
Get that booty, shared a smoke
Singin I love I love my life
I love my I love my
I love I love my life So I like I've been thinking about the time
that we stayed up all night
Makin' love me gusta candle light
You were so young rich and full of life
Next night had everybody singin' the blues
All dressed up, dancing like fools
Break out the Martin Auvich jewels
We livin and dreamin,
Just stick with what we do to shine My girl is cray
She got money in the bank
Digs the music that I make
Sing it, I love I love my life
My girl is dope, Louis Vuitton's and Prada coat
Get that booty, shared a smoke
Singin I love I love my life
I love my I love my life
She's got long legs and lashes, my chic's so attractive
Makes you wonder why she's running with a dude like me
And behind me yeah you can confide
Like your Louis V, I'll never leave your side
So you're wild and fearless
I'll give you all of me

I'll show you things you'd never thought you'd see
You're wild and free, oh oh oh...My girl is cray
She got money in the bank
Digs the music that I make
Sing it, I love I love my life
My girl is dope, Louis Vuitton's and Prada coat
Get that booty, shared a smoke
Singin I love I love my life
I love my I love my life
She's got long legs and lashes, my chic's so attractive
Makes you wonder why she's running with a dude like me I love I love my life
I love my I love my
I love I love my life
