# Alright Ok

## J Moss

When I think of my life, my life I
I think about all the good and the bad
When I think of every smile and cry I
Know somebody was looking out for me
When I think of every up and down I
Seen a lot of friends come to and end
Every high and low that hurt me look at me and now sayEverything is alright
Everything is ok
Everything is all good and I won't complain even if I could
Everything is alright
Everything is ok
Everything is all good sunshine and rain working as it should
It's alright ok
I'm alright ok
I'm alright okI'm alright ok
When I think about days and nights I
I try to sort out the truth from a lie
When I think of every head and heartache
Know somebody was looking out for me
When I think of how I needed answers called a lot of friends but they weren't in
Then I hear a voice not of reason say it's my seasonEverything is alright
Everything is ok
Everything is all good and I won't complain even if I could
Everything is alright
Everything is ok
Everything is all good sunshine and rain working as it should
Everything is alright
Everything is ok
Everything is all good and I won't complain even if I could
Everything is alright
Everything is ok
Everything is all good sunshine and rain working as it should
It's alright ok, it's alright ok
It's alright ok, it's alright ok
It's alright ok, it's alright ok
It's alright ok, it's alright ok
It's alright ok, it's alright ok
It's alright ok, it's alright ok
It's alright ok, it's alright ok

It's alright ok, it's alright okEverything is alright
Everything is ok
Everything is all good and I won't complain even if I could
Everything is alright
Everything is ok
Everything is all good sunshine and rain working as it should
Everything is all good sunshine and rain working as it shouldIt's alright ok
I'm alright ok
I'm alright ok
I'm alright ok
