

My Mistakes

Eleanor Friedberger

If I could erase, everyone of my mistakes
Tell me would it make you wanna come over
And work this out with me and now I'll do whatever it takes
Just meet me halfway all I want is for you to come over
And work this out, work this out with me
Whats wrong with me? Why can't I do right?
You promise me you give me a life, if I could be well
Then just a typical guy to lie to your face
How could I do the things that I say I wouldn't do?
Keep doing the same I give you
Might just too pitiful to recognize your worth
Now you tell me that before promise
That I wouldn't go there no more you gave me all of you
But what did I go do and every time I had the chance
To get into another nigga woman's pants
I would follow through not thinking of me and you
If I could erase, everyone of my mistakes
Tell me would it make you wanna come over
And work this out with me and now I'll do whatever it takes
Just meet me halfway all I want is for you to come over
And work this out, work this out with me
As bad as I want you right here
I empathize with the way that you feel
Took away the thing that you call your cute
If you could find the feeling you have from the start
You know we should never be apart
I'm asking you can you please listen to me?
When you took me back before I promise
That I wouldn't go there no more you gave me all of you
But what did I go do and every time I had the chance
To get into another nigga woman's pants
I would follow through without thinking of me and you
If I could erase, everyone of my mistakes
Tell me would it make you wanna come over
And work this out with me and now I'll do whatever it takes
Just meet me halfway all I want is for you to come over
And work this out, work this out with me
If I could erase, everyone of my mistakes
Tell me would it make you wanna come over

And work this out with me and now I'll do whatever it takes
Just meet me halfway all I want is for you to come over
And work this out, work this out with me
When they want you come over and talk to me
I know I don't deserve to be a part of anyone
Tryna give me the heart they loving me
Baby please come on over and talk to me
I see you like you've never seen him before
'Cause you're the only one to show me the love
If I could erase, everyone of my mistakes
Tell me would it make you wanna come over
And work this out with me and now I'll do whatever it takes
Just meet me halfway all I want is for you to come over
And work this out, work this out with me
If I could erase, everyone of my mistakes
Tell me would it make you wanna come over
And work this out with me and now I'll do whatever it takes
Just meet me halfway all I want is for you to come over
And work this out, work this out with me
If I could erase, everyone of my mistakes
Tell me would it make you wanna come over
And work this out with me and now I'll do whatever it takes
Just meet me halfway all I want is for you to come over
And work this out, work this out with me
