

# Slow Motion Sickness

Dave Navarro

Continued the waiting, tearing at the wing  
(I lost a friend)

A terrible plaything broken on a swing  
(I lost a friend)

Kept boxes of old days when you were afraid  
Alone and nothing thought I had something  
To ease the pain of hurting you  
I just can't take this although I've made this  
The evening that I'm moving through  
Forever to find you severing the new  
(I lost a friend)

I wanted to wake you someone that I knew  
Don't even know you, can I go with you?  
Can't say I need anything

Love this depression another session  
There's nothing more that I can bring

I am writing this down  
(I have never lived before)  
I am writing this down  
(I have never lived before)

Slow motion sickness, why should I fix this?  
Shaken by the sight of me

The painted babies and run late ladies  
Brought out a different side of me

I am writing this down  
(I have never lived before)  
I am writing this down  
(I have never lived before)

I am writing this down  
(I have never lived before)  
I am writing this down

Sometimes, sometimes  
I don't feel so good, I don't feel so good  
Sometimes, sometimes

I don't feel so good, I don't feel so good  
Sometimes, sometimes

I don't feel so good, I don't feel so good  
Sometimes, sometimes

I don't feel so good, I don't feel so good

Sometimes, sometimes  
I don't feel so good, I don't feel so good
