

# Pictures

## China Drum

Picture talking with your friends without a conversation

Picture walking with yourself without a complication  
I know, I know, you're running from me, I know, I know  
Taking all my time, taking all my shine, taking all my pride

Taking almost everything, everything  
Picture sleeping in your bed without a tug of war

Picture drinking with your friends  
I know, I know, you're running from me, I know, I know  
You're taking all my time, taking all my shine, you're taking all my pride

Taking almost everything, everything  
Picture talking with your friends, picture talking with your friends  
I know, I know, you're running from me, I know, I know  
Taking all my time, taking all my shine, taking all my pride

Taking almost everything, everything  
Realization is coming to me, the facts and figures are all adding up to me

Realization is coming to me, the facts and figures are all adding up to me

Realization is coming to me, the facts and figures are all adding up to me

Realization is coming to me, the facts and figures are all adding up to me
