

# Carolina Rose

## Gloriana

Ever since we took that midnight drive  
Down to see the water in the full moon sky  
And I told you I loved you on the blue creek road  
Well I was full on fallin' for my Carolina Rose

Spent the next four years just singing my songs  
With Rosie in the front row singing along  
Till I got that call, had to hit that road  
Man, how am I gonna leave my Carolina Rose

Yeah the big time is everything I ever wanted  
But the spotlight can't hold a candle to you  
Standing up here on this stage, they all say "man, you got it made"  
They don't know, it don't mean a thing without my Carolina Rose

Met a California girl on a west coast run  
She sparkled like a diamond in the setting sun  
They called me crazy when I let her go  
I just couldn't stop thinking about my Carolina Rose

Well the big time is everything I ever wanted  
But the spotlight can't hold a candle to you  
Standing up here on this stage  
They all say, "man, you got it made"  
They don't know, it don't mean a thing without my Carolina Rose

I've been halfway around the world just to come back to you  
I hope I ain't too late  
And I hope that you're still thinking about me too

'Cause now I'm back here standing on your front porch  
It's been five years baby, but it feels like more  
Well let me drive you down that blue creek road  
I got something to say to my Carolina Rose

Well the big time was everything I ever wanted  
But the spotlight can't hold a candle to you  
Standing up there on that stage, it might look like I got it made  
But my heart knows, it don't mean a thing without my Carolina Rose

No it donâ€™t mean a thing without my Carolina Rose

It donâ€™t mean a thing without my Carolina Rose
