Weakness

Raghav

Girl you know my weakness
Girl you know my weakness
Girl you know my weakness
I can never say no to you
Whenever you're not around
Things seem quite alright
Everything is going fine
Till your back in my life
You've done it to me again baby
You got my body soul and mind
But there ain't no stopping now
You got me working overtime
Let me lay you down again, down again
This time the story is gonna end
Happily
Girl you know my weakness
I can never say no to you
And I know you know it to
That I'm such a fool
Never say no to you
Girl you know my weakness
I can never say no to you
And I know you know it to
That I'm such a fool
Never say no to you
You say that you're back for more
And you're here for good this time
Well where have I heard those words before
But I don't even mind
You're mine tonight
I wish that I was thinking straight
But girl when I look in your eyes
No memories of the pain
Just again and again
Wishing it's gonna change
One thing I gotta say is
Let me lay you down again
This time the story is gonna end
Happily

Girl you know my weakness
I can never say no to you

And I know you know it to
That I'm such a fool
Never say no to you
Girl you know my weakness
I can never say no to you
And I know you know it to
That I'm such a fool
Never say no to you
Well long days and lonely nights
That I had to make it through
Without you by my side
Just say you're mine for life
It'll prove what I thought I knew
That you need me
Like I need you
Girl you know my weakness
I can never say no to you
And I know you know it to
That I'm such a fool
Never say no to you
Girl you know my weakness
I can never say no to you
And I know you know it to
That I'm such a fool
Never say no to you
Girl you know my weakness
I can never say no to you
And I know you know it to
That I'm such a fool
Never say no to you
Girl you know my weakness
I can never say no to you
And I know you know it to
That I'm such a fool
Never say no to you
Girl you know my weakness
Girl you know my weakness
I can never say no to you
Girl you know my weakness
