# Let It Go

## **Gungor**

#### Chorus

Oh this is a song from my soul
This time I won't sweat it, I'm gonna let it go
Verse I

I don't recognize my own face no more I stare in a mirror than turn and it's gone Nameless and famous changing my alias Manafest & Chris fighting for the right placement 1979 I was born 1995 I grabbed a board 1999 I wrote a song, spit a metaphor Went from amateur to entrepreneur You still don't know me, you dudes can't touch me Stab me, kill me, hug me or love me Inside I'm a person, hurting, and working Pouring myself out, putting my neck out Can you see him? I tell them I'm right here He still won't come out he's rivaled with fear Examined by the critics, and put on this dis list I won't be jaded though I'm starting to see it They don't respect him he's just another musician

#### Chorus

Oh this is a song from my soul
This time I won't sweat it, I'm gonna let it go
I won't stress I'll just do my best
Yeah!!! You've taken up all my cares
Given me eye sight and meaning
And I'll let the whole world know about you

## Verse II

The voice of suicide

Used to creep up in my mind

The fat kid could care less if I lived or died

I didn't think it had affect on me

But now I'm 25 watching my weight size, I'm really scrawny

The name calling, bullying from the hooligans

The who's in, who's not had no friends

My audience is triple the size of that now

All eyes on me shall I rap now

Thank you all for coming to my show

Thank you for burning my cd that you stole

### When I get desperate I write a message

My rhymes the essence of day to day lessons
Feeling butt naked my pride has been taken
Every mistake that I've made there taping
Can I find peace, can I find me
Who's the real man that's hiding behind the emcee?
I want to know

Bridge

What's real, what's not, what's real Super star Chorus
Oh this is a song from my soul
This time I won't sweat it, I'm gonna let it go
I won't stress I'll just do my best
Yeah!!! You've taken up all my cares
Given me eye sight and meaning
And I'll let the whole world know about you
Verse III

We may not agree on everything or anything
By any means I'm a fulfill the dream
I seen it come and go, I've tried to grab hold
Hope I don't end up losing my soul
Hip hop ain't worth it I've served and cursed it
Sacrificed to make it work, and lost my purpose
It's not what I'd die for to risk my wife and all
Strife cause can't compare the lives it's caught
I am Christian, emceeing a gifting, hip hop's what I'm living
Not replacing religion,

I got relationship with a God in the sky
He talks to me defines wrong and the right
Talk to him, when you're walking or jogging
Skating or playing, or painting or balling
I'm a pass the mic, I on a path for Christ
Let me tell ye the, shoot I'm out a time

Chorus

Oh this is a song from my soul
This time I won't sweat it, I'm gonna let it go
I won't stress I'll just do my best
Yeah!!! You've taken up all my cares
Given me eye sight and meaning
And I'll let the whole world know about you
