

A Lonely Singing Doll

Twinkle

Fame and fortune was my aim
I knew that I could go far
But now my life cannot be the same
Since I became a singing star Always first with every style
I seem to have it all
But underneath this happy smile
I'm just a lonely singing doll I am just like other girls
I want to find a boy to love
But I never got the chance
To find the boy I'm dreaming of
Any party I go to
People stop and they stare
Boys on the lurk never speak to me
It's just as if they didn't dare So each night I stay at home
Looking at the wall
I always seem to be on my own
I'm just a lonely singing doll (Instrumental interlude) I am just like other girls
I want to find a boy to love
But I never got the chance
To find the boy I'm dreaming of Any party I go to
People stop and they stare
Boys on the lurk never speak to me
It's just as if they didn't dare
So each night I stay at home
Looking at the wall
I always seem to be on my own
I'm just a lonely singing doll I always seem to be on my own
I'm just a lonely singing doll
