Living For Today

Pennywise

One two three four
You look around, what do you see?
I'll tell you what I see is a world belonging to me
Take time to find what you may dream
It's all right there within your grasp
Just beyond what you can see
We're the ones, only ones, strong ones, proud ones
We're living for today
Those for the past and tomorrow, well they'll have hell to pay
We're the ones, only ones, strong ones, proud ones
We're living for today
Those for the past and tomorrow, well they'll have hell to pay
And if your days are going by too fast
It's time for you to slow down
It's time for you to make it last
Before you trip and slip and you will miss
This happy little stepping stone just before eternal bliss
We're the ones, only ones, strong ones, proud ones
We're living for today
Those for the past and tomorrow, well they'll have hell to pay
We're the ones, only ones, strong ones, proud ones
We're living for today
Those for the past and tomorrow, well they'll have hell to pay
Your life goes by before you know
You gotta take time to slow down
Better take time to veer off the road
Enjoy the sights while you are here
There's nothing to fear but fear itself
Who knows when the end is near?
We're the ones, only ones, strong ones, proud ones
We're living for today
Those for the past and tomorrow, they'll have hell to pay
We're the ones, only ones, strong ones, proud ones
We're living for today
Those for the past and tomorrow, well they'll have hell to pay
Don't make plans with your hands tied, you'll never know
You're missing out repeatedly
On the things that help you grow
You've got to own your soul, you've got to take control

Find a one day plan young man
Get this straight, live for today
Living for today, I realize
Living for today, I think I'll find
Living for today, I open my eyes
Living for to, one day you can throw it away
Living for today, I realize
Living for today, I open my eyes
Living for today, I think I'll find
Living for to, just beyond what you can see yourself
