

# The Last One

W.S. Merwin

Did you know that the right won?  
Another fool, you're the sidearm  
And it's enough that you broadcast  
You got to touch  
Well, this is the last one  
This is the last one  
Did you find what you wanted?  
Another match for the straw man  
I've had enough, it can bleed through  
You think you're tough  
Well, this is the last one  
This is the last one  
Hold on to me one more night  
Hold on to me, can't take it all

Can't take it all  
And you know that I need you  
But you know I can see through you  
Well, this is the last one  
This is the last one  
This is the last one  
(Can't take it all)  
This is the last one for me  
(Can't take it all)  
This is the last one  
(Can't take it all)  
This is the last one  
(Can't take it all)  
This is the last one
