

Complicated Girl

The Bangles

Valerie is beautiful
But she seems a little bit confused
The life you offer her she says
She cannot use You live in another world
She thinks she won't fit in and, oh
What about her plans for him
She bends to his will Hey, you better listen
'Cause I'm warning you
Love is never simple
With a complicated girl You call her on the phone
She's got the other guy on hold
You see the scene unfold
You know it very well Stay inside your room all day
When she doesn't call you pull the shades
Never seen you act this way
The girl has hit you hard Hey, you better listen
'Cause I'm warning you
Love is never simple
With a complicated girl Why bother making rules
You know she will not follow?
Someday she'll find a way to remedy
This lovely mess she's made of you Hey, you better listen
'Cause I'm warning you
Love is never simple
With a complicated girl
