

Echo

Foxes

I can hear your thoughts
Please don't leave now
I can't sleep alone
Chasing the light until the dawnThought we left a tray
Back to the way that it was
I can see it now
In your eyes you let it fallRunning in a crypt
Of a thousand words
Hiding in the dark
When the violence starts
Looking for a star
We've gone too far
Too farDon't hide in the dark
Playing shadow games
Turn out the lights
Time for a change
'Cause the devil sleeps in your headDon't hide in the dark
Playing shadow games
Turn out the lights
Didn't you say we would stay
Til we heard the last
Echo, echo, echoLook into my eyes
Do you see something to defend
Spinning in the lights
Will I grow old before I die?
Silence is a curse
I feel it breaking the ice
I can see it now
In your eyes you let it fallRunning in a crypt
Of a thousand words
Hiding in the dark
When the violence starts
Looking for a star
We've gone too far
Too farDon't hide in the dark
Playing shadow games
Turn out the lights
Time for a change
'Cause the devil sleeps in your headDon't hide in the dark

Playing shadow games
Turn out the lights
Didn't you say we would stay
Til we heard the last
Echo, echo, echo You got to be the star
You got to beat it The dark is on your side
You got to beat it
