

Love Without a Name

[Lisa Stansfield](#)

What is this?
How did I get here?
Pretending I don't know your name again
In another world I'd be your girl
But in this one I'm crying
I'd die without you
So I can't let you go
Some things you can't explain
I always say it's the last time but
Here we go again
You kiss me and I surrender
I can never resist the pain
It's just so, baby, you know
It's just love without a name
It haunts me
Oh, so bitter sweet
Never knowing when we'll meet again
In another world I would say goodbye
But in this one I'm flying
And I'd die without you
So I can't let you go
Some things you can't explain
I always say it's the last time but
Here we go again
You kiss me and I surrender
I can never resist the pain
It's just so, baby, you know
It's just love without a name
No, no, no, no
But when we're dancing slowly
When you hold me, I know
No, I can't let you go
Some things you can't explain
I always say it's the last time but
Here we go again
You kiss me and I surrender
I can never resist the pain
It's just so, baby, you know
It's just love without a name
No, I can't let you go
It's love without a name
'Cause I love you, baby, baby, yeah baby
No, I can't let you go
It's love without a name
