The Forgotten

Killswitch Engage

You were once the source
Of a pureness that can't be defined
And now you curse the day
How can you leave your faith behind?Just look at yourself
Do you like what you see?
I want no more of you
Watch me walk awayThis is the last time
You are the forgotten
You let your dreams die
You are the forgottenPlaced your ego above all
But misplaced your innocenceJust look at yourself
Do you like what you see?
I want no more of you
Watch me walk awayThis is the last time
You are the forgotten
You let your dreams die
You are the forgottenWhat you have given up
Will never return again
Now you're dead inside
I hope it was worth the costI hope it was worth the cost
I hope it was worth the cost
Now you're buried aliveThis is the last timeThis is the last time
You are the forgotten
You let your dreams die
You are the forgotten
