

Broken Wings

Mary Black

A tall tree turn and face the west
Oh we're running with the wind
A high clifftop we're waiting with the rest
For this journey to beginChorusBut these broken wings won't fly
These broken wings won't fly
These broken wings won't fly at allAnd oh how we laugh but maybe we should crawl
And ask to be excused
We shout loudly, have answers to it all
Oh but we have been refusedChorusGirl child
You're dancing with the stream
Growing with the silver trees
Your young questions
You ask me what it means
Oh but I am not at easeChorus
