

Sunzal

Coasta

Wake up wake up it's time to go
and don't forget to pack your bones
the search to find out what's in store
starts with that first step out your door
and now you're offswing swing swing swing your legs
kick off the ground in excitement
our feet are itching crazy for that road
its how we grow its how we grow the lonely trees they dance and sing for me
and it just makes me feel so nice
we're on again to go and get right off our heads
a short fade is on your side
I'm on your side
we trip on the nightwake up wake up its time to go
and make sure that no one knows
our feet are itching crazy for that road
its what we know its how we grow
