

# Superiority Overdose

## Agathocles

self-made superiority  
but what about responsibility?  
the arrogance of the human race  
only led to blood and hate  
why would men be the upper-class?  
while we represent the ignorant mass  
why don't we use our rational mind  
to see other species are less blind  
superiority overdose-human fools  
superiority overdose-man will loose  
self-made superiority  
but what about responsibility?  
the arrogance of the human race  
only led to blood and hate
