

Still Alive

Kirk Franklin

The Gospel soundtrack lyrics -- Still Alive .. Kirk Franklin

God is a Good God and His love endureth

Because of what you've done for us, Your name right now we bless

Shout it from the rooftop that, God is still alive

He will be our cloud by day and our pillow of fire by night

(1st Verse) When I was in darkness and I could not see my way

Lord it was your faithfulness that let me see another day

Even though I stumbled You never took you love from me

That is why I thank You Father, You know I finally see There is none like you

Can't nobody do me like you do

Your mercy and Your grace

Now I can truly say

God is a Good God and His love endureth

Because of what you've done for us, Your name right now we bless

Shout it from the rooftop that, God is still alive

He will be our cloud by day and our pillow of fire by night (2nd Verse) Lord You came and saved me from the
prison of my life

And the second chance you gave me I didn't know how long it would last

Why you picked me up, when You knew I would fall again

Shows how much You love me and Your love will never end

There is none like you

Can't nobody do me like you do

Your mercy and Your grace Now I can truly say

God is a Good God and His love endureth

Because of what you've done for us, Your name right now we bless

Shout it from the rooftop that, God is still alive

He will be our cloud by day and our pillow of fire by night

Still Alive! God is still alive! (x18)
