

# Half-Life

## Oliver James

I'm awake in the afternoon  
I fell asleep in the living room  
and it's one of those moments  
    when everything is so clear  
before the truth goes back into hiding  
I want to decide 'cause it's worth deciding  
to work on finding something more than this fear  
    It takes so much out of me to pretend  
    tell me now, tell me how to make amends  
    maybe, I need to see the daylight  
    to leave behind this half-life  
    don't you see I'm breaking down  
    lately, something here don't feel right  
    this is just a half-life  
    is there really no escape?  
    no escape from time  
        of any kind  
    I keep trying to understand  
    this thing and that thing, my fellow man  
    I guess I'll let you know  
        when i figure it out  
    but I don't mind a few mysteries  
    they can stay that way it's fine by me  
    and you are another mystery i am missing

It takes so much out of me to pretend  
    maybe, I need to see the daylight  
    to leave behind this half-life  
    don't you see I'm breaking down  
Lately, something here don't feel right  
    this is just a half-life  
    is there really no escape?  
    no escape from time  
        of any kind  
    come on lets fall in love  
    come on lets fall in love  
    come on lets fall in love  
        again  
'cause lately something here don't feel right

this is just a half-life,  
without you I am breaking down  
wake me, let me see the daylight  
          save me from this half-life  
          let's you and I escape  
              escape from time  
          come on lets fall in love  
          come on lets fall in love  
          come on lets fall in love  
              again
