

# Mercy, Mercy, Mercy

## Eddie Jefferson

Too bad, that we just can't get along  
Too bad that you think that I am wrong  
But now you have taken me by surprise  
You say that you wanna say goodbye  
Sweet baby, have some mercy, mercy mercy mercy  
Have some mercy, mercy mercy mercy, babe  
Do you have to be so mean?  
Won't you lighten up on me?  
And show some mercy, I love you,  
just have some mercy, mercy, please

We shared many many joyous years  
We shared all the heartaches and the tears  
You say that we both should need a change  
I know you been acting mighty strange  
You should have some mercy, show a little mercy  
Think what it would do to my poor heart  
Darling won't you make a start, yeah  
You'd be nothing if we part  
So have some mercy, I need you,  
please have some mercy, mercy, girl..
