Back In Time

[Seventh Day Slumber](#)

Carry me away back in time to when I met you
Take all this guilt and shame
That buried me, bury me in youI want to be dead but still alive
I want to breathe hope instead of choking
I want to feel the fire deep inside
Burn through me and carry me awayHow fake could I be, you see through me
You see right through me
Would you sing to me?
And take me back to when I met youI want to be dead but still alive
I want to breathe hope instead of choking
I want to feel the fire deep inside
Burn through me and carry me awayI hear you calling me
I feel so far from home
You can see through my past
You've never let me goI want to be dead but still alive
I want to breathe hope instead of choking
I want to feel the fire deep inside
Burn through me and carry me
Burn through me and carry me away
