Keep The Faith

Special D

I see the sky is falling
Down to the beauty ground
Wipe away teardrops slowly
I feel a lonely sound

Memories fadin' driftin'
Add to reality
Save the last hope
Deep inside of me

Keep the faith
If you will see
You still can believe in me
Keep the faith if I will be
All that from me and me

Covering sameless motions
Nothing obscures my lies
Longing for you forgive me
I scream there's no reply

Memories end up asking
Am I the queen of pain?
Kiss me, bless me
Stop this send of rain

Keep the faith
If you will see
You still can believe in me
Keep the faith if I will be
All that from me and me

Keep the faith
If you will see
You still can believe in me
Keep the faith if I will be
All that from me and me
