

# What You Have Is Enough

## Voice of the Beehive

You're upset because your TV is on the blink  
Now you have to watch in the living room life is rough  
In this world of plenty it is easy to forget  
That darling what you have is enough We used to go down to Beverley Hills sometimes  
The price of shoes could feed families  
We would leave depressed, it was easy to forget  
That darling what we had was enough  
That darling what we had was enough What we had was plenty, plenty I can't change the value of money  
I can't change the price of life  
But if you've got a choice between your wallet and your woman  
Honey take your wife And if time is money then you'd better spend it  
Any way you like Oh, he's not like us, no he is a simple one  
He's happy to have just another day  
Ha wakes up and smiles, I think he's calling all our bluffs  
He knows what he has is enough  
He knows what he has is enough And if time is money then you'd better spend it  
Any way you like Oh, go go little girl, go out and get 'em  
Now you show 'em how to do it, you show 'em your stuff  
Well, you may not have money to dress up  
Like, "You know who", honey, but what you have is enough  
That darling, what you have is enough  
That darling, what you have is enough Darling, what you have is enough  
Darling, what you have is enough
