Days are passing by
Without being there
Everything was so fine
Everything me and you
Go, go
We did nothing wrong
Thought all the time
That's how we could go on
Everything else we will see
Go, go
Go, leave us behind you and me
Don't try to understand
Why we can't go on anymore
Go, try to loose us both
We'll only be able to go on
If we don't see each other anymore
Go, go
Go, do it for you and me
I couldn't do it
I wouldn't be brave enough
Everything you and me
Go, go
Days are passing by
Without being there
Your trace leads to me
So far away from you
Go, go
I break the light
Shadows fall onto me
I don't see us
All shadows fall onto me, onto me
Shadows fall onto me
Days are passing by
Without being there
That's everything that's left for us
If you go, if you go now
Don't try to understand
Why we can't go on anymore
Go, try to loose us both

We'll only be able to go on
If we don't see each other anymore
Go, go
Days are passing by
Without being there
Stay
