When It's My Time

Brookside

Sometimes I feel like I'm not enough
Being with you used up all of the luck
I've never asked if you say I'm wrong
Just cause I'm smiling don't mean that I'm strong

Not always happy but you're always there
Don't say it enough, hope you know that I care
I would spend every second of my time
If it were you and me, I wouldn't mind

Oh, oh
Oh, oh

Don't need a nice house or a fancy new car,
Me and my friends and a Taylor guitar
Too many kids say that they're not enough
I don't need money to tell me my worth

Not gonna lie, don't care too much 'bout school
Maybe that's wrong, only don't think it's cool
Too many things that I'd rather be doing
But what's more important than being a student

I know that wrong
Still I can try
Got problems you'll never see,
Problems I'll hide
Rest of my days and the end of my life,
If it were you and me I wouldn't mind

Oh, oh
Oh, oh

When it's my time,
Remember my name
Not cause you lost me
Not for the pain
I hope I did well
Got up when I fell
I've been so caught up

In the stories they'll tell

Dear future me,
There's not much time
I'm getting tired of standing in line
Something I want,
I may never find
Feeling of freedom forgotten in life

With no destination and trouble ahead,
Music's been saving me time and again
Know that I'm young
And I know that I'm free
But I'm getting tired of calling them dreams

So when it's my time,
Remember my name
Not cause you lost me
Not for the pain
I hope I did well
Got up when I fell
I've been so caught up
In the stories they'll tell

One day I'll know
As far as I'll go
I'll never tell them
The reasons unknown

One day I'll find
The rest of my life
Listen to me
As those voices sing

Woah woah woah
Woah woah woah
Woah woah woah
Woah woah woah
Woah woah woah
Woah woah woah
