In Love And Lonely

Him

In love and lonely
In love and lonely
I'm not with you, my baby
Just to see you cry
I'm in love with you
Not the tears in your eyes
I can't remember
The last time you smiled
Oh, I know how it feels
I know what it's like
To be in love and lonely
In love and lonely
Don't know what to do? My baby
It's not alright
This can't be the end
The time to say goodbye
Oh, no, I won't walk away that easy
After all this time
Oh, you know how it feels
You know what it's like
To be in love and lonely
In love and lonely
In love and lonely
In love and lonely
Oh, you know how it feels
You know what it's like
You know how it is
But you just can't stop crying
In love and lonely
In love and lonely
In love and lonely
In love and lonely
In love and lonely
In love and lonely
In love and lonely
In love and lonely
That's right, oh
