

# Flesh and Blood

Beth Orton

Gonna lay my cruelty down  
Getting tired of the sound  
All the ways I use to hurt myself  
All is sky and all is sea  
Our days are spaces  
Between dreams  
She'll be your first  
I could be your last  
Ever it is I'm not going to change it  
Ever it is I'm not gonna name it  
What will be I'm certain I don't know  
We have today  
And that is forever  
Life after life  
When we are together  
An endless sky  
The light in your eye  
A little feel in the dark  
For the beautiful spark And now I'm grateful for the storm  
That ever brought me to your door  
Any breeze that brought me to my knees  
There's always been a beautiful sky  
It's just there's some clouds in my eyes  
I was wild but I need you to be free  
Ever it is it ain't mine to name it  
Ever it is it ain't mine to claim it  
What will be I'm certain I don't know  
We have today  
And that is forever  
Life after life  
When we are together  
An endless sky  
The light in your eye  
A little feel in the dark  
For the beautiful spark  
Big blue sky  
Behind the clouds of our eyes  
A little feel in the dark  
For the beautiful spark Whatever this is

Whatever this is  
Whatever this is  
Whatever, whatever, whatever, whatever, whatever this is  
Whatever this is  
Whatever this is  
Whatever this is  
Whatever, whatever, whatever, whatever, whatever this is
