Every Little Bit Hurts (Early Mono Session Mix)

Small Faces

Every little bit hurts [x2]
Every night I cry
Every night I sigh
Every night I wonder why
You treat me cold
Yet you won't let me goEvery little hurt counts [x2]
You say you're coming home
Yet you never phone
Leave me all alone
My love is strong for you
I'd do wrong for youI can't take this loneliness you've given me
I can't go on giving my life away[Bridge]
Come back to me
Darling you'll see
I can give you all the things that you wanted before
If you will stay with me
