Vertigo

Monster Magnet

I can have my cherries and you can have your real And we can screw in lava till the Gods lick at our heels

We were born in oil a million years ago

And we can push the buttons of the come that makes us goMakes us go, makes us go, makes us go, makes us go, makes us go

Makes us go, makes us go, makes usWhen I spoke with Saturn, he told me I was gone

But I can't lick eruption when my pulls

Tells me it's strong, there's a tiny little monkey

He lives inside my head he whispers on your mind

In sleeps and tucks you into bedIn your bed, in your bed, in your bed

In your bed, in your bed, in your bed

In your bed, in your bed, in your bed

In your bed, in your bed, in your bed

In your bed, in your bed, in your bedI can smell invasion, red excited mind

I can see the general dropping into flaming pines

We just plugged forever, we just saved the day

Kiss your little self for me, everything's okayIt's okay, it's okay, it's okay

It's okay, it's okay, it's okay

It's okay, it's okay, it's okay
