

Save Me (Extended Club Mix)

[Darren Styles](#)

I have been waiting, all of my life
For you to come along, and make everything alright
My body's shaking,
right through my bones
So take me by the hand, please don't leave me here alone
And I wonder if you
know just how I feel..
I Feel, Yeah..
And I wonder how i know if this is real..
Is real
'Coz I want you to
save me,
Just please save me,
Save me
'Coz I need you to save me,
Just please save me,
Save me
I have been waiting, all of my life
For you to come along, and make everything alright
My body's shaking,
right through my bones
So take me by the hand, please don't leave me here alone
And I wonder if you
know just how I feel..
I Feel, Yeah..
And I wonder how i know if this is real..
Is real
'Coz I want you to
save me,
Just please save me,
Save me
'Coz I need you to save me,
Just please save me,
Save me
'Coz I want you to save me,
Just please save me,
Save me
'Coz I need you to save me,
Just please save me,
Save me
'Coz I want you to save me,
Just please save me,
Save me
'Coz I need you to save me,
Just please save me,
Save me
