La Familia

æ•¾æœ¬æ½¤

Hey friends don't you think you better cool it down
You're always gettin' curious and leavin' town
You know i like it being in your family
I wonder what would happen if nobody left
We'd all stick around if we'd all stick aroundAnd here's a question that's been tested:
Tell me, if we sleep together
Would it make it any better?
If we sleep together
Would you be my friend forever?If we sleep together
Would it make it any better?
If we sleep together
Would you be my friend?Hey friend listen up their playing our song
On the radio, do you have to go?
I really like it, this rock and roll
Makes me want a little sugar in my bowl
It's like the glory days, it's like a fortune soldAnd here's a question that's been tested:
Tell me, if we sleep together
Would it make it any better?
If we sleep together
Would you be my friend forever?If we sleep together
Would it make it any better?
If we sleep together
Would you be my friend?Let's none of us forget about who we are
So choose a path and follow it
Take a pill and swallow it
None of us forget about who we are
It's not forever we can fool around in the darkIf we sleep together
Would it make it any better?
If we sleep together
Would you be my friend forever?If we sleep together
Would it make it any better?
If we sleep together
Would you be my friend forever?
Forever (x8)
